This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PREFACE.

THIS book owes its existence to the late Mr. Clifford Wyndham Holgate's bequest to the Warden and Fellows of Winchester College of the copyright of his "Winchester Commoners, 1836–1890," and of the further material which he had collected for a second edition, and to the acceptance of the said bequest by the legatees.

The further material above mentioned consisted of the following :—

(*a*) A considerable number of corrections and additions made by Mr. Holgate in an interleaved copy of his book; this copy was given by him to Mr. Herbert Chitty, who has from time to time noted further *addenda* and *corrigenda*.

(*b*) A manuscript list of scholars admitted between January, 1836, and the end of 1854. This list (though in a good many cases it does not give the parentage of the scholars, and in seventeen cases between 1836 and 1851 gives nothing but their names with dates and places of birth) is fairly full down to 1851; from 1852 to the end of 1854 the information it supplies is very scanty.

(*c*) A similar manuscript list of scholars admitted between Short Half, 1869, and the end of 1890. This list gives in most cases the date of birth and the name and address of a parent or guardian, but in very few cases are any biographical particulars attached.

(*d*) A manuscript list of the names of scholars and commoners admitted between the beginning of Common Time, 1891, and the end of Common Time, 1901, in most cases with the date of birth and name and address of parent or guardian, but in no case with any biographical details.

In supplementing and correcting the material placed in my hands, I have obtained much valuable assistance from Mr. Francis Brodie, Dr. Teale, Mr. W. H. H. Bird, Mr. Herbert Chitty, Mr. G. W.

[In a MS. notebook belonging to Dr. Moberly, in which he was accustomed to note the names of those to whose parents he had promised their admission as Commoners, there appears, under date 1841, the name—

"Stephenson, son of James, Esq., 10, New Sq., Lincoln's Inn, Sept., 1841," to which he has subsequently added the note "abiit ad Cantab." There is, however, a difficulty here, for the University Calendars about this period contain only the following Stephensons:—

(1) Charles; Pemb. 1846;
(2) Augustus Frederick William Keppel; Caius 1844;
(3) John Joseph; Caius 1845;
